Purchase Terms

Local delivery can be easily arranged by contacting me; longer distance delivery can be arranged by providing shipping details to me (I will immediately determine shipping costs and provide this to you).

Given the uniqueness of each item, returns are not offered for any reason other than shipping damage. Contact me immediately to make a damage claim. Do not accept the shipment if visual damage is apparent. Please take pictures of the damage to assist the process, and obtain signatures on the delivery receipt.

Protection

Wipe with a clean cloth, wax occasionally, and don't place hot or wet objects on wood surfaces. All pieces are designed to be long lasting and maintenance free.

Process and Woods

My goal is to create and build unique art in wood, which is intended to add beauty, be unique and harmonize with your environment. I use the finest materials, mostly black cherry, but also ash, black walnut, maple and oak, and achieve a smooth luster and protect the art with a hand rubbed method. Every piece is handmade to last, engage interest and display inherent wood beauty. Every day I am inspired to create from viewing nature's beauty

Commissions

I accept commission work and enjoy working with clients. Please contact me to start the process and discuss measurements and wood choices. Commissions are made to order and are not returnable. A non refundable deposit is required for all commissioned pieces.
